## OPERATING PERMIT FOR FACILITIES PECEIVING SOLID WASTE

TYPE OF FACILITY

FACILITY/PERMIT NUMBER

Class II - 2 Landfil\*

40-AA-008

NAME AND STREET ADDRESS OF FACILITY

Chicago Grade Landfill Homestead Road Route 1, Box 440 Templeton, California 93465 NAME AND MAILING ADDRESS OF OPERATOR

Walter and Patricia Johnson Route 1, Box 68 Templeton, California 93465

PERMITTING ENFORCEMENT AGENCY

San Luis Obispo County Health Department

CITY/COUNTY

San Luis Obispo

# PERMIT

This permit is granted solely to the operator named above, and is not transferrable.

Upon a change of operator, this permit is subject to revocation.

Upon a significant change in design or operation from that described by the Plan of Operation or the Report of Station or Disposal Site Information, this permit is subject to revocation, suspension, or modification.

This permit does not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal.

This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

The attached permit findings, conditions, prohibitions, and requirements are by this reference incorporated herein and made a part of this permit.

\* Class II-2 is now reclassified as Class III.

Oct. 16, 1986

#### Facility Location

Section 1, Township 28 south, Range 12 east, MDB & M, San Luis Obispo County (Homestead Road-approximately 4 miles northeast of Atascadero, California).

#### **Findings**

- 1. This facility is an existing Class II-2 sanitary landfill utilizing trench and fill and area methods of operation. The facility is approximately 40 acres with a remaining site life estimated to end the year 2017 (32 years). This site currently receives an average of 43 tons of commercial and 18 tons of public Group 2 waste per day. In 1985 commercial refuse trucks number 2,814 while assorted types of public vehicles number 37,408. This site is operated generally from 8:30 a.m. to 3:00 p.m., seven days per week. Current salvaging is limited to metals and some repairable or usable household and building materials. The types of waste received at this site include:
  - a. Residential and commercial solid waste.
  - b. Tires.
  - c. Construction and demolition waste.

Design and operation of this facility are as specified by the SCS Engineering Report dated January 1976 and the Report of Disposal Site Information and Operation Plan dated August 25, 1985 (including all related maps and other documents). There will be no significant changes in design or operation in the next five (5) years.

The following document also conditions operation of this facility:

- a. California Regional Water Quality Control Board, Central Coast Region: Waste Discharge Requirements, Order No. 78-04.
- b. Conditional Use Permit No. U700220.1 dated April 27. 1970.

This facility's design and operation are currently in substantial compliance with the State Minimum Standards for Solid Waste Handling and Disposal as determined by LEA inspection of July 18, 1986.

- Land within 1,000 feet of this site is zoned as General Agriculture and Light Agriculture.
- 4. This facility is consistent with and listed in the latest version of the San Luis Obispo County General Plan.

### Chicago Grade Landfill 40-AA-008

Page 3 of 3

- This permit is subject to review by the Health Officer and the California Waste Management Board and may be suspended, revoked, or modified at anytime for sufficient cause.
- 3. The permittee agrees that the Health Officer, the California Waste Management Board or their authorized representative have the right of inspection at any reasonable time.

#### **Provisions**

 This permit requires review five years from the date of issuance unless a significant change occurs. Any significant change requires modification of the permit reflecting this change.

#### Self-Monitoring Program

The following items shall be monitored by the operator of this facility of his/her agent and records shall be kept and made available to the enforcement agency upon request:

- 1. The quantity and type of waste received at the site per day and per month.
- Area of site utilized.
- 3. Quantity and type of wastes salvaged per month.
- 4. The number of vehicles utilizing the site per day and per month.
- 5. Records of special occurrences and excavations in natural terrain.
- 6. Records of any well monitoring test results.
- 7. Records of any landfill gas monitoring results.
